

Solar street light series

www.jianyulighting.com

Integrated Solar Street Light

Features & Advantages

- Patented Integrated Thickened Die-Cast Aluminum Housing**
 Made from pure aluminum die-casting with stainless steel fittings, ensuring exceptional durability and pressure resistance;
- High-Efficiency Solar Panel**
 Equipped with oversized photovoltaic panels for higher energy conversion rates, enabling reliable charging even on cloudy days;
- High Light Efficiency of more than 200LM/W**
 Features premium SMD LEDs, providing superior brightness;
- Professional Anti-Glare Lens**
 PC full-cutoff lenses (T2S/T3M/T3M), ensuring comfortable illumination;
- Multiple Control Options**
 Including time control, light sensing, IoT connectivity, and 0/1-10V dimming, for intelligent and customizable lighting solutions;
- End-to-End Solutions with SKD, OEM, and ODM services available;**
- With fully integrated production facilities, we provide comprehensive services to meet diverse customer needs;

Model	Power	Size(mm)	Weight	CRI(RA)	Luminous Efficiency	Viewing Angle	IP Grade
JIS-1001-50W	50W	550*370*156	3860	≥80	200LM/W	70°140°	Ip65
JIS-1001-100W	100W	793.5*370*156	4500	≥80	200LM/W	70°140°	Ip65
JIS-1001-150W	150W	983*416*156	5830	≥80	200LM/W	70°140°	Ip65
JIS-1001-200W	200W	1153.5*416*156	6540	≥80	200LM/W	70°140°	Ip65
